Amazing!
Everyone's age today is 2022

Did you know that today the whole world is of the same age! Today is a very special day and only happens once every thousand (1,000) years.

Your age + your year of birth, every person = 2022.

It's so strange that even experts can't explain it! You check it out and see if it's 2022. It has been waiting for a thousand years!

Example:
I am 68 years old.
I was born in 1954.
So 68+1954= 2022

The music group needs a keyboard player – do you play see President Doug!

You thought smoking at the pump was risky shit 😂😂😂😂

A transport Company called us for assistance with drilling holes at either end of several pieces of hardwood. A contractor due to do the work cancelled at the last minute. We received a very generous donation of \$200 from the very satisfied customer who was able to get his project finished on time.
