Overlooked logic at the G20...

The Bicycle Is killing our planet.

General Director of Euro Exim Bank Ltd. got economists thinking when he said:

A cyclist is a disaster for the country's economy:

he does not buy cars and

does not borrow money to buy.

He does not pay for insurance policies.

He does not buy fuel, does not pay for the necessary maintenance and repairs.

He does not use paid parking.

He does not cause serious accidents.

He does not require multi-lane highways.

He does not get fat.

Healthy people are neither needed nor useful for the economy.

They don't buy medicine. They do not go to hospitals or doctors.'

Nothing is added to the country's GDP (gross domestic product).

On the contrary, every new McDonald's restaurant creates at least 30 jobs:

10 cardiologists, 10 dentists, 10 dietary experts and nutritionists,

and obviously, people who work at the restaurant itself."

Choose carefully: cyclist or McDonald's? It is worth considering.

Walking is even worse. Pedestrians don't even buy bicycles.

EHMS Shirts

This week the order sheet will be on the table for polos. We can also bet long sleeved and the more expensive black bamboo shirts.
