

Issue 9 # 26

Shedding Endeavors

1st July 2025

Shed is open Mon to Sat 10.00am to 3.00pm

President – Doug Rowley

president@ehms.org.au

Vice President – Ronald Sterling

principalservices@gmail.com

Secretary - Paul Morris

secretary@ehms.org.au

Treasurer – John Thornton

treasurer@ehms.org.au

Almoner – Doug Rowley

yelwor1946@gmail.com

Editor *pro tem*:

Will Beattie

wlbeattie@bigpond.com

03 9700-7795

Been there copped that!

July Birthdays

1 Narasimhaih Venkatappa
3 Brian Ashworth
8 Paul Huver
11 Ian Dudley
12 John Sebastian
16 Carmelo Cannata
17 Maxwell Brockbank
19 Len Follett
29 Shayne Marks

Get Well List

Ron Sterling
Rodney James
Louis Zaharopolous
Paul Morris (back in harness)

Cleaning Roster

Garrick Williams-Toilets
(Dunny Master)

Mark Wittman. 01 July
Peter Wallace

Stan Ashley 08 July
Tony Brosinsky

Tony Rotunno. 15 July
Vin Wragg

Bruce Latham 22 July
Bruno

Howard De Zylva 29 July
Laurens Gordyn

Len Follett 5 August
Louis Zhararopoulos

Recent Tuesday Topics

What a lucky bloke **Bob Daly** is, as last Tuesday was also his Birthday ...
So, **we sang him Happy Birthday** (He looked so thrilled!!!)

I had to bolt before **John Grennan's** talk on IIRC – Entertainment!
(My wife had the dreaded lurgy and I only went to the shed to share it with you all).

A few other things were brought up ...
But, to be on the safe side – I'll ignore them for the moment.

Safe Topics: We may send the Bulletin to (political) people who support our shed –
except during election times.

Thanks to **Howard**, we now have some shots of what I missed.

John talks and **Paul** is *"Back in Harness"*

AJ et al, in *Bank Robbery Position*

I hope our books are neater than this?

Ross at work or is it play?

Ross:

When one door closes and another door opens, you are probably in prison!
To me, 'Drink responsibly' means don't spill it.

Public Notices

Hans would like to notify EHMS members of this **Woodworking Display & Expo ...**
With Free Entry At Berwick. I'll add the fullsize PDF as an attachment!

**BERWICK DISTRICT
WOODWORKERS CLUB Inc.**

Visit our Workshop & Clubrooms at
The Old Cheese Factory, 34 Homestead Rd., Berwick
FREE entry
(Children under 16 to be accompanied by an adult) please)

Woodworking Demonstrations, including:
Wood Turning / Band Sawing / Scroll Sawing / Dremel
Toy Making / Routing / Pyrography / Wood Carving

Various items produced by
our members on display.
A selection of items for
sale.

Kids Activity Corner.
Raffle.
Tea & Coffee available.

Friday 11 July 2025: 5pm-8pm
Saturday 12 July 2025: 9am-5pm & Farmers' Market 8am-1pm
Sunday 13 July 2025: 9am-5pm

Garrick Offers: Free to a Good& Caring Home

I have 8 pairs of these **hi-compression socks** which are too small for me which I will bring next week. They are on the basis of free to a good home, first to apply can take 1 pair or 8. They would be a further waste of money if I returned them to the USA as they are sized large and I guess my feet are 2 sizes larger than large.

Regards,
Garrick

Tuesday Lunches – that aren't just “snags”

Posts About Reels Photos Videos

This local Entrepreneur **Sanda**, has been supplying excellent and reasonably priced lunches on some Tuesdays at our very own EHMS!

She suggests ...

- 1st July we will be serving:- Lasagna & Vegetables \$7
- 29th July if date suits:- chicken goulash & mashed potatoes \$7
- 26th August if date suits:- Brisket or Pulled Pork Rolls \$7

And says

“Thank you for having us we appreciate your ongoing support .

The current menu provided is to serve some hearty want meals during these winter months, as the weather gets better, we could do some more summery type options.”

Contact Details

Tony R has suggested: a set serving time should be finalised, to allow her serve “on time”!

Laury Gordyn has submitted this interesting Coding Snippet

CODING

Hi Guys, moving along to programming languages and what really is a programming language. Also, if interested keep searching web and reading about coding as the penny will drop so stay persistent.

Along the way we will most likely cover the following:

- **C++**
- **C#**
- **HTML**
- **PHP,**
- **JavaScript**

A **programming language** is a formal system of notation used to write computer programs. It allows programmers to communicate instructions to a computer in a way that the machine can understand and execute. Programming languages are essential tools for creating software, applications, and systems that perform various tasks, from simple scripts to complex algorithms.

There are thousands of programming languages, each with its own strengths and weaknesses, but some of the most popular and widely used include Python, Java, JavaScript, C#, C++, and PHP. These languages are used for a wide range of applications, from web development and data science to game development and system programming.

Here's a more detailed look at some of the most prominent languages:

High-Level Languages:

- **Python:** Known for its readability and versatility, Python is a popular choice for beginners and is widely used in data science, machine learning, web development, and scripting.
- **Java:** A robust and versatile language, Java is used for building a wide range of applications, including enterprise-level software, Android mobile apps, and more.
- **JavaScript:** Primarily used for front-end web development, JavaScript is also used for back-end development with Node.js and is essential for creating interactive web pages.
- **C#:** A versatile language developed by Microsoft, C# is used for building Windows applications, web applications, and games (especially with Unity).
- **PHP:** Widely used for server-side web development, PHP is a popular choice for building dynamic websites and web applications.

Lower-Level Languages:

- **C:** A foundational language, C is often used for system programming, operating systems, and embedded systems.
- **C++:** An extension of C, C++ is used for high-performance applications like game development, operating systems, and high-performance computing.
- **Rust:** A modern systems programming language focused on memory safety and concurrency, Rust is gaining popularity for its performance and security features.
- **Go:** Developed by Google, Go is designed for building scalable and efficient network services and is known for its simplicity and concurrency features.

Other Notable Languages:

- **SQL:** While not a general-purpose language, SQL is essential for managing and querying databases, and it's used in conjunction with other languages.
- **R:** A language and environment specifically designed for statistical computing and graphics, R is widely used in data analysis and research.
- **Swift:** Apple's language for developing iOS, macOS, watchOS, and tvOS applications, Swift is known for its performance and safety features.
- **Kotlin:** A modern language that runs on the Java Virtual Machine (JVM), Kotlin is increasingly popular for Android development.

This list is not exhaustive, but it covers many of the most important and widely used programming languages. The best language for you to learn will depend on your specific goals and interests.

https://en.wikipedia.org/wiki/List_of_programming_languages

(Ed. When I was young, a High Level Language was COBOL, ALGOL. Low level was Assembler).

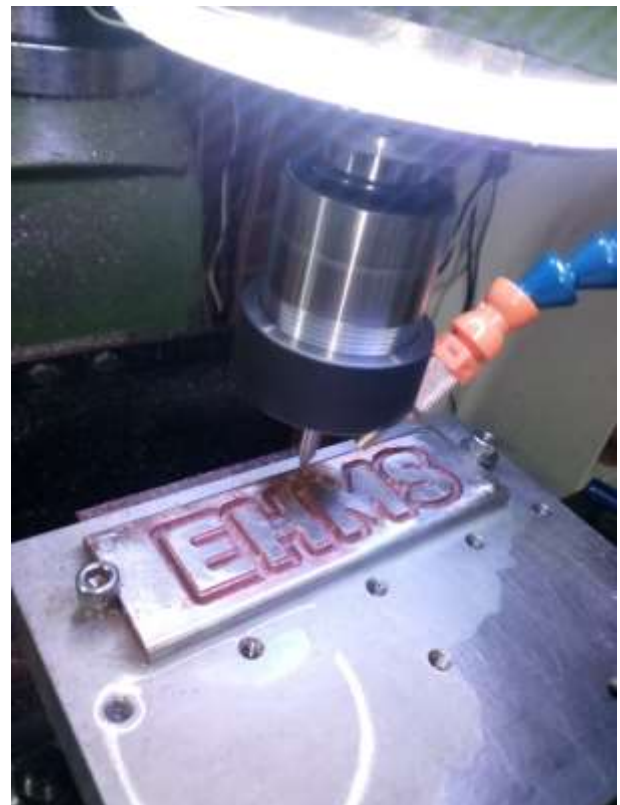

CNC + Slotcars

The original few CNC interested bods is slowly increasing. We have **Rommie, Ross, Glenn, Laury G,** myself and now **Hans.**

Rommie told me last Tuesday, he has an old machine bed which has X and Y axes. Which is great news, as I have a xPro V5 GRBL CNC Controller (which is a huge improvement on the original CNC Controller I built during COVID see pics). So, if we can join these bits we'll really have a basis to start learning on a CNC machine.

This would make Peter W. cringe

Learning how to cut a Brand

Odd Bods at the EHMS (Thanks to Howard)

The Sausage Gaggle

Memes Memes Memes!

Ron Sterling's Updates' are missed badly (by EHMS Editor pro Tem!)

Hopefully **Ron** is finally recovering slowly from his recent fall.
Us older chaps should learn from his experience!
Here are some of Ian's jokes that may cheer you up!
Get well soon mate!

Spaghetti code – for Laury G

AI as it's meant to be used?

Rogues of the Week (Grumpy and Grumpier!)

Good to see **Rodney** up and around but IMO those STOP signs are giving someone the “finger”!

(I’ve kept the chair warm for you **Rodney** ... please come back!)

Photo: Courtesy of the EHMS’s ~~biggest Troublemaker~~ most eager photographer.
(Howard De S – who is rarely Grumpy.)
